

To support young academics, our Institute, the “**Deutsche Gesellschaft für Altersforschung**” rewards the “**Dieter Platt Förderpreis für experimentelle Gerontologie**”, which is endowed with 12.000 Euro.

Requirements are:

- A outstanding degree dissertation
- Younger than 30 Years old

This prize is for funding a PhD thesis over 12 months (1000 Euro per month).

The funding will be carried out by the respective university. You will have to give all the necessary documents to Prof. Dieter Platt before the year is over.

The president of the DGfA will receive the application documents, and judge it along with the commission. Since only the young academics of the DGfA shall be funded, this prize will **not** be posted in public.

Sponsor: Prof. Dr. Dieter Platt Stiftung
